A. CLASSIFICATION OF SUBJECT MATTER Int. Cl. ⁷ : A61K 38/18, A61P 9/10, 13/12, 17/02, A01K 67/027 According to International Patent Classification (IPC) or to both national classification and IPC		
B. FIELDS SEARCHED Minimum documentation searched (classification system followed by classification symbols) Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched Electronic data base consulted during the international search (name of data base and, where practicable, search terms used) DWPI and MEDLINE. Keywords: cell division auto antigen, DENTT, differentially expressed nucleolar TGF-beta 1 target, angiotensin, TGF-beta, connective tissue, fibrosis.		
C. DOCUMENTS CONSIDERED TO BE RELEVANT		
Category*	Citation of document, with indication, where appropriate, of the relevant passages	Relevant to claim No.
X	Ozbun, LL; You, L; Kiang, S; Angdisen, J; Martinez, A; Jakowlew, SB. Identification of differentially expressed nucleolar TGF-beta 1 target (DENTT) in human lung cancer cells that is a new member of the TSPY/SET/NAP-1 superfamily. Genomics, 15 April 2001, vol. 73(2), pages 179-93 Whole document, especially abstract	1, 10
A	Martinez, A; Ozbun, LL; Angdisen, J; Jakowlew, SB. Expression of differentially expressed nucleolar transforming growth factor-beta 1 target (DENTT) in adult mouse tissues. Developmental Dynamics: an official publication of the American Association of Anatomists. Jun 2002, vol 224(2), pages 186-199. Abstract	
<input checked="" type="checkbox"/> Further documents are listed in the continuation of Box C <input type="checkbox"/> See patent family annex		
* Special categories of cited documents: "A" document defining the general state of the art which is not considered to be of particular relevance "E" earlier application or patent but published on or after the international filing date "L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified) "O" document referring to an oral disclosure, use, exhibition or other means "P" document published prior to the international filing date but later than the priority date claimed	"T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention "X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone "Y" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art "&" document member of the same patent family	
Date of the actual completion of the international search 30 July 2004	Date of mailing of the international search report - 6 AUG 2004	
Name and mailing address of the ISA/AU AUSTRALIAN PATENT OFFICE PO BOX 200, WODEN ACT 2606, AUSTRALIA E-mail address: pct@ipaaustralia.gov.au Facsimile No. (02) 6285 3929	Authorized officer M. Ong Telephone No : (02) 6283 2491
